Qu'est-ce que le profil d'utilisateur ?

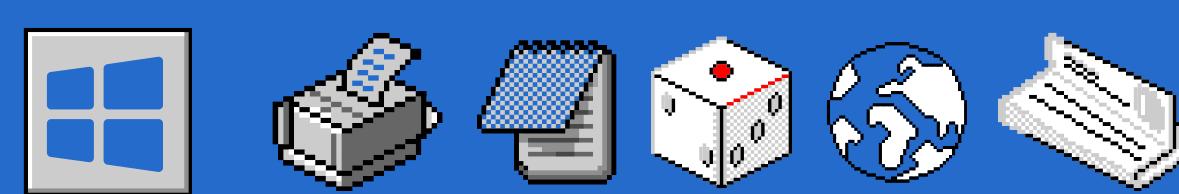

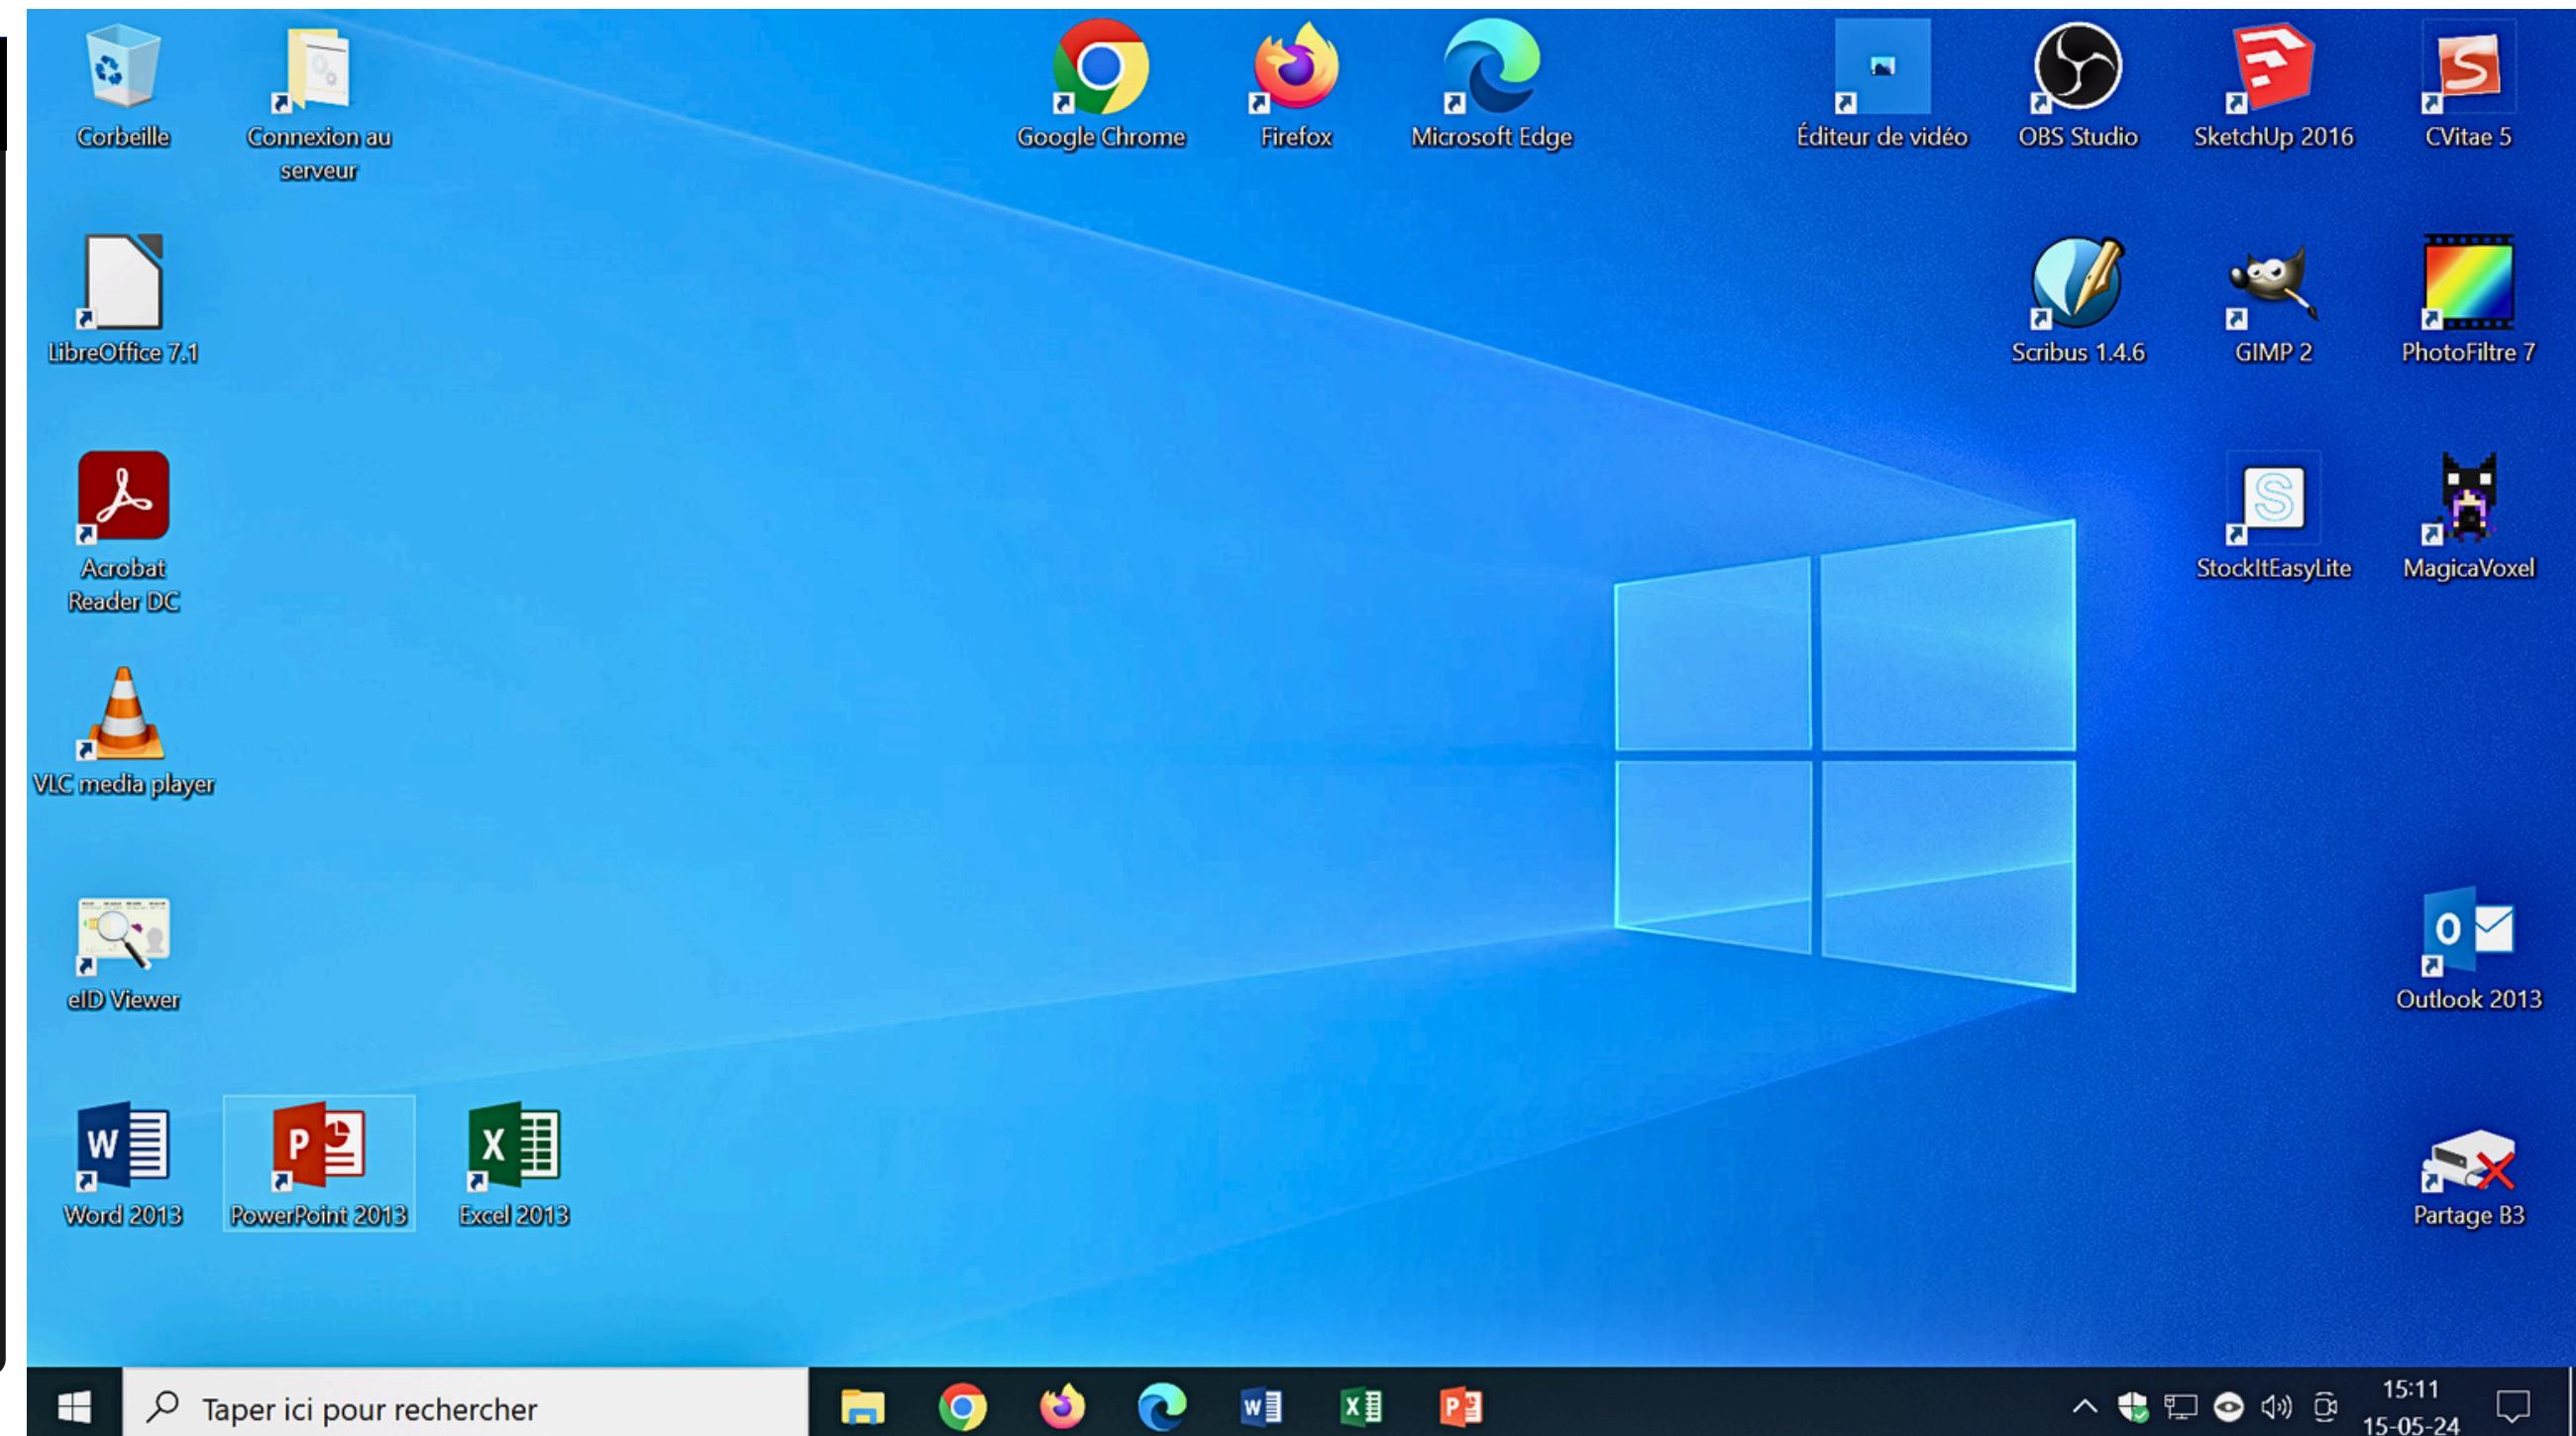

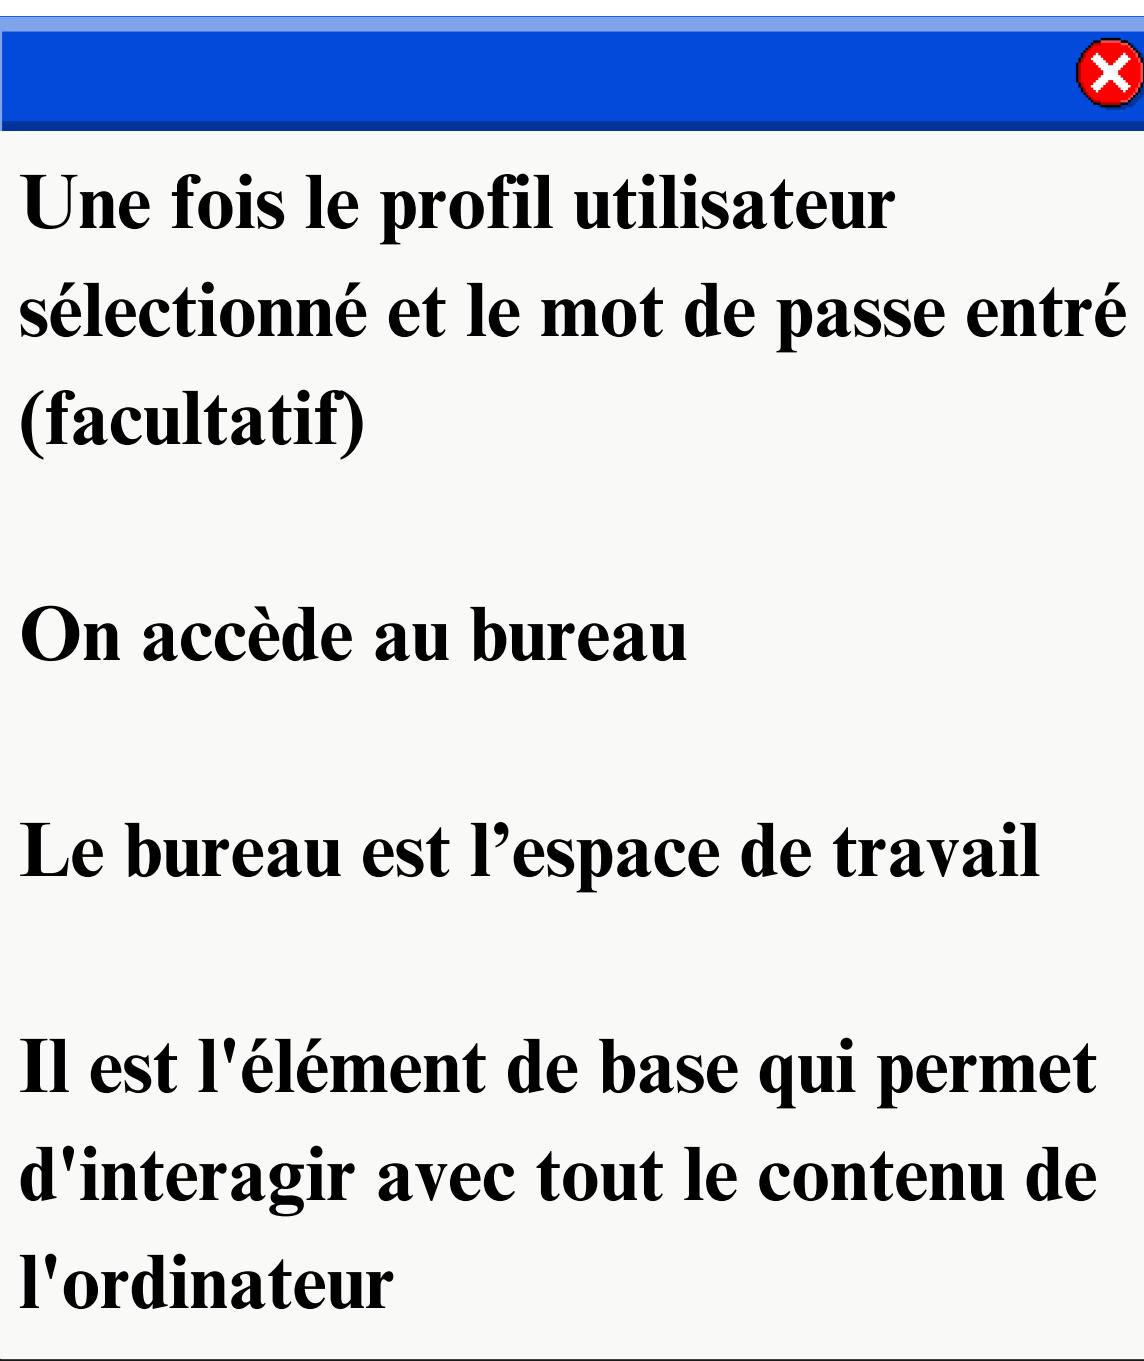

Au démarrage de l'ordinateur,
Windows 10 s'exécute et affiche
ceci:

- Il s'agit du profil d'utilisateur
- C'est un espace personnel
- Il contient tous nos fichiers,
programmes et données

Qu'est-ce que le bureau ?

11:11PM

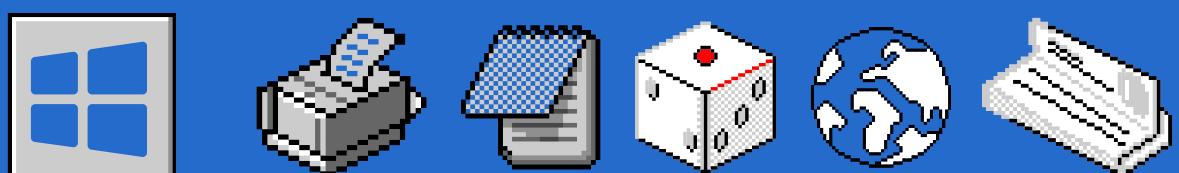

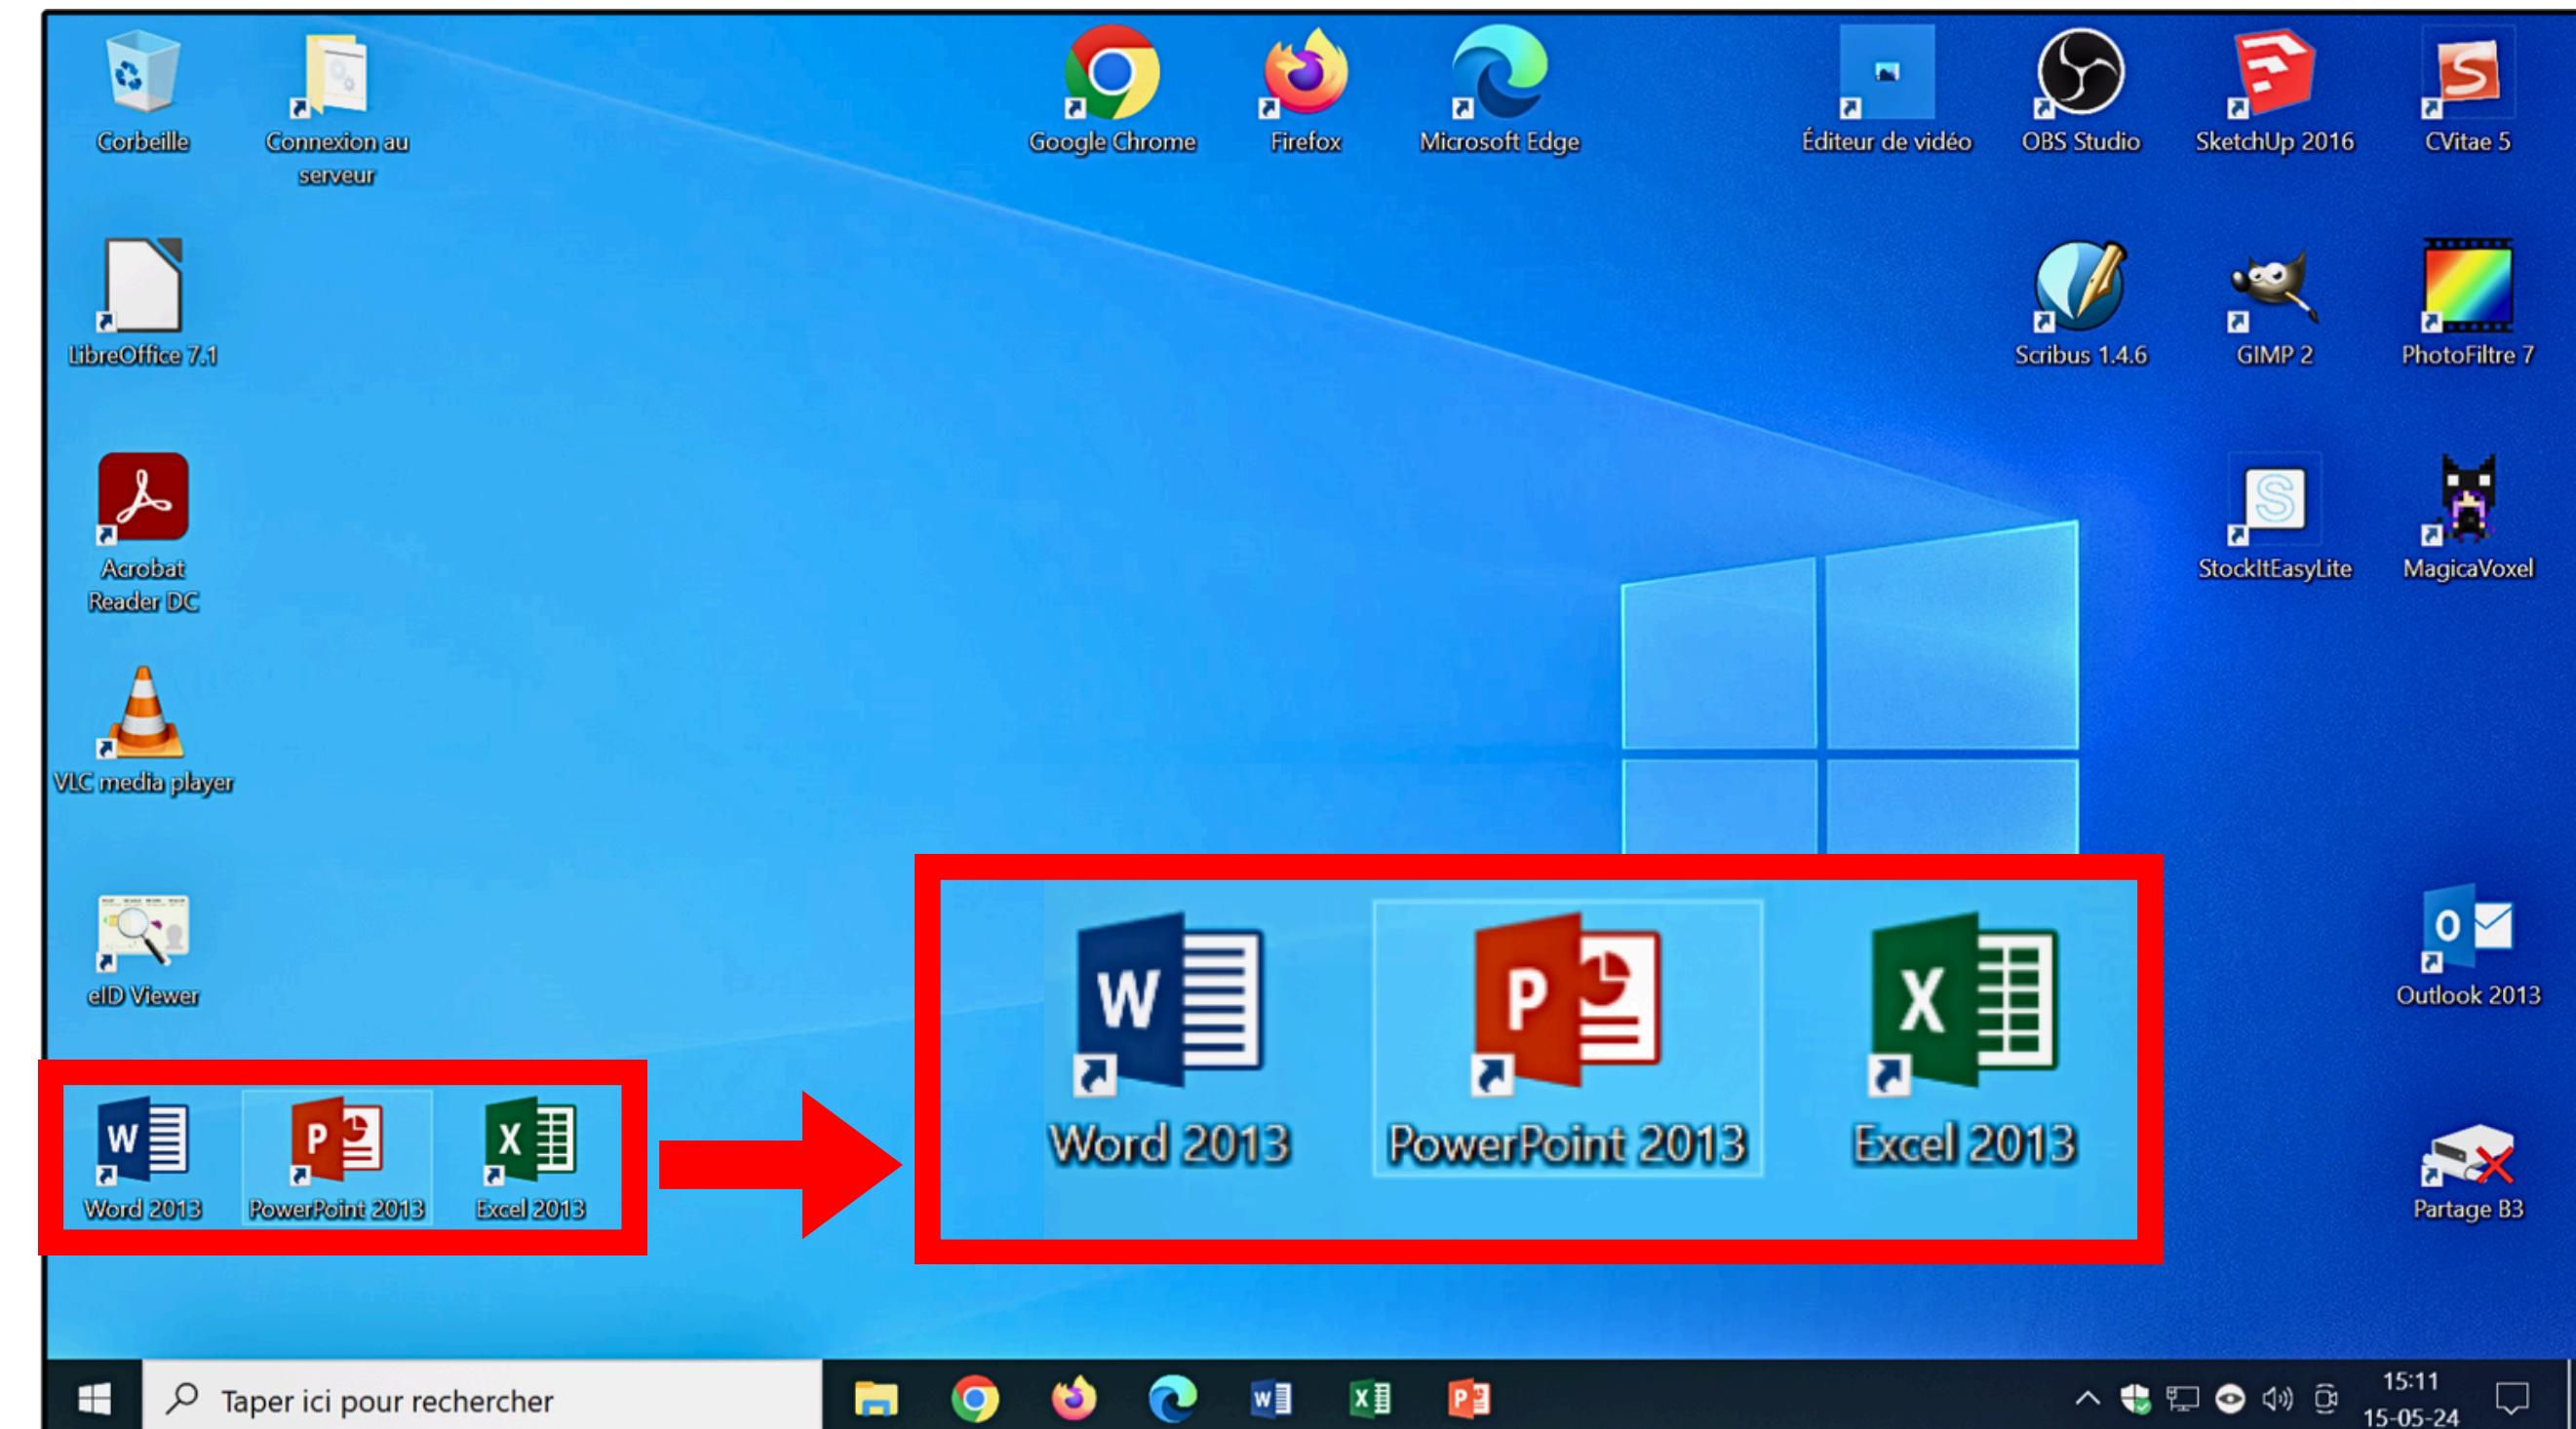

Les composants du bureau

On trouve sur le bureau:

- Des applications et raccourcis

Il s'agit de miniatures représentant le programme ou le fichier auquel elles sont associées.

Un double clic gauche sur une miniature ouvre ce programme ou fichier

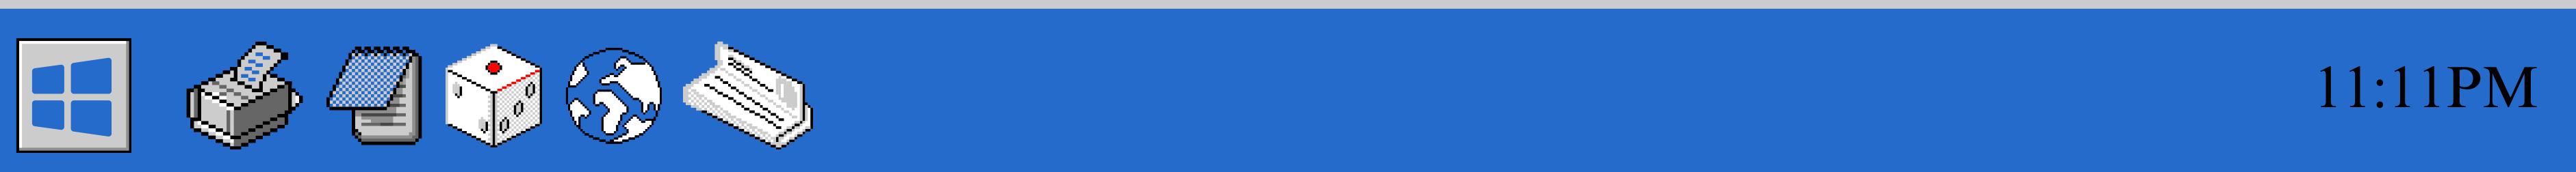

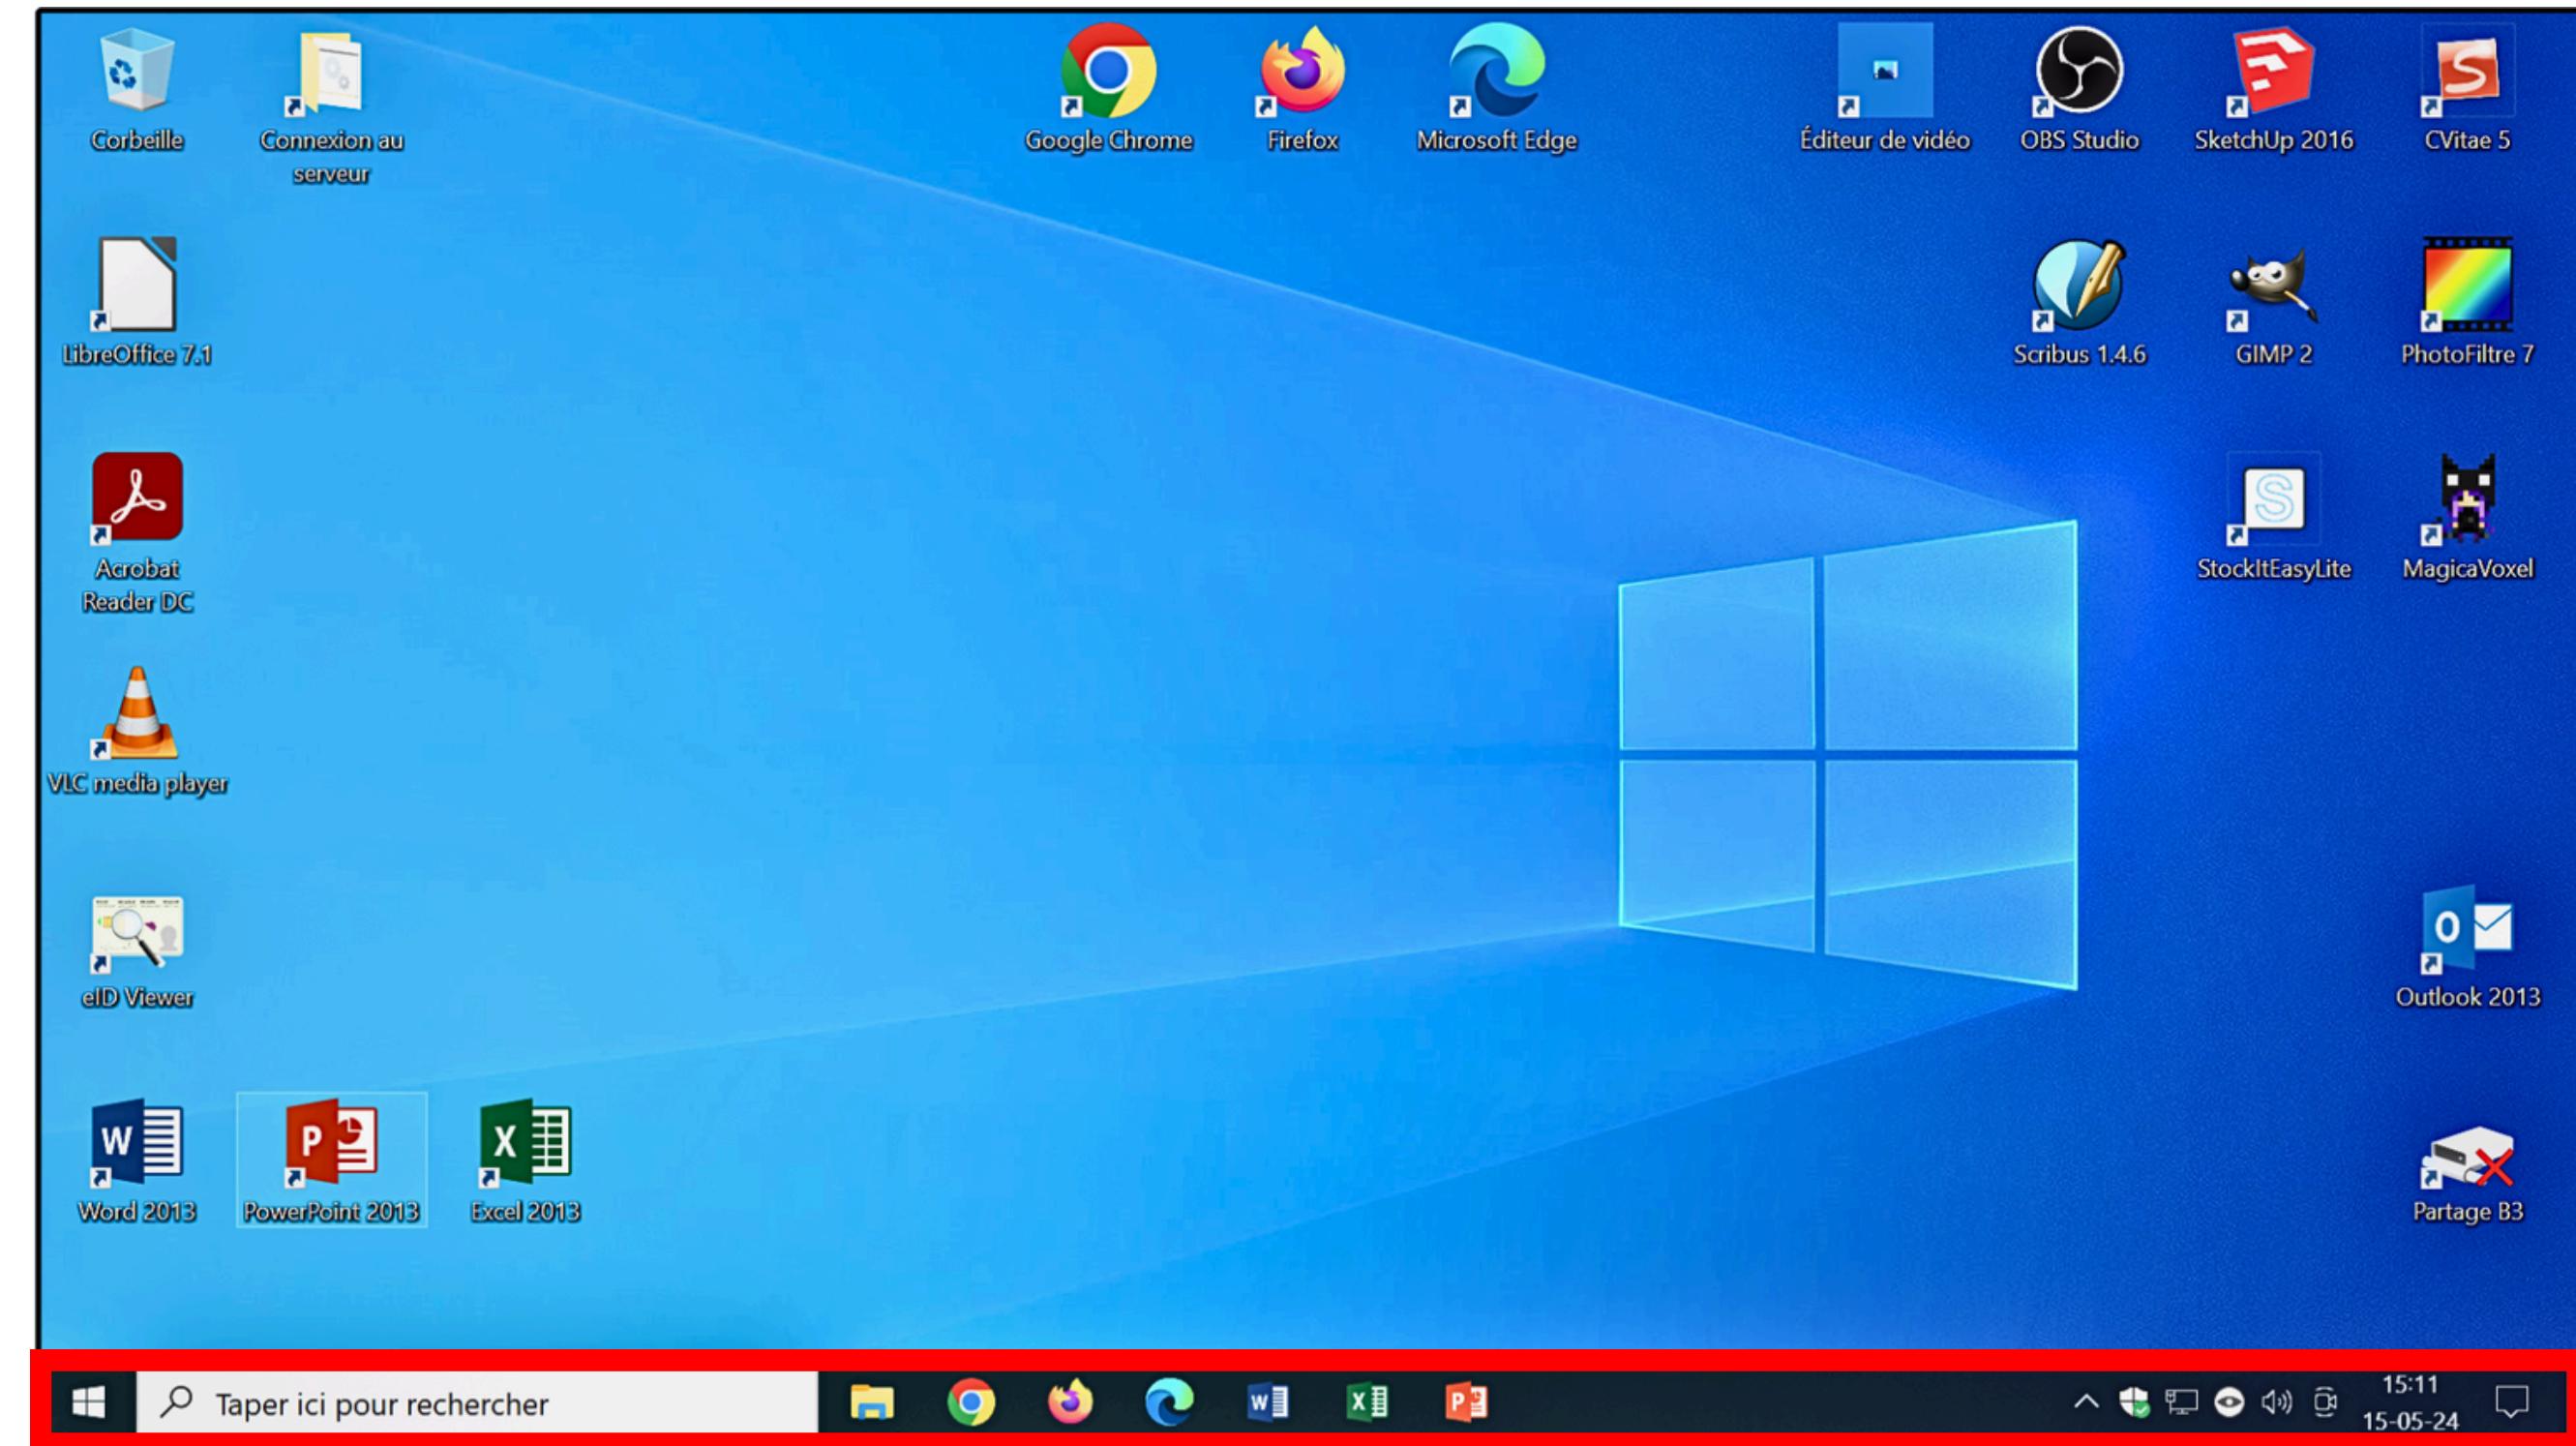

11:11PM

Les composants du bureau

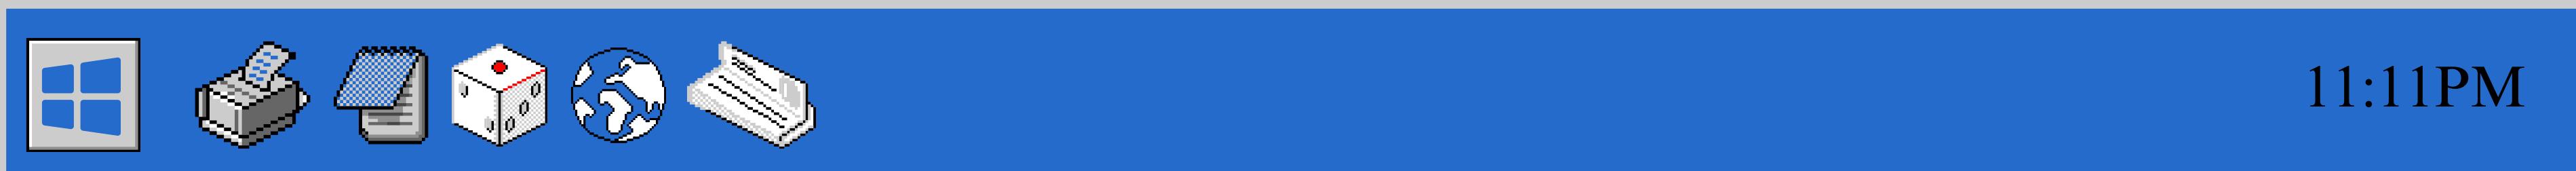

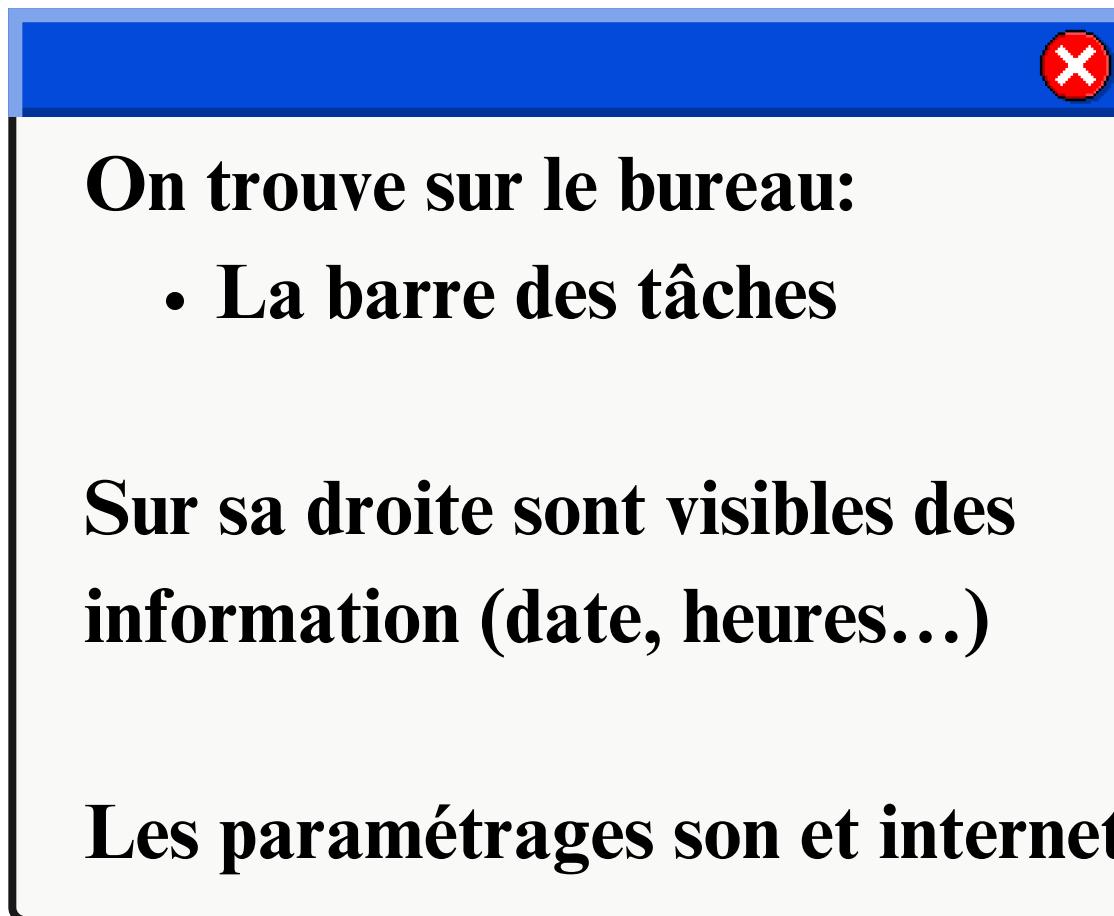

On trouve sur le bureau:

- La barre des tâches

S'y trouve également des applications , un simple clic gauche ouvre le programme ou fichier associé

Les composants du bureau

Les composants du bureau

On trouve sur le bureau:

- La barre des tâches

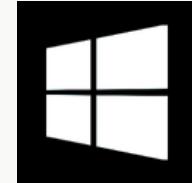

Sur sa gauche, la barre de recherche et le menu démarrer

La barre de recherche permet de retrouver un élément en tapant son nom

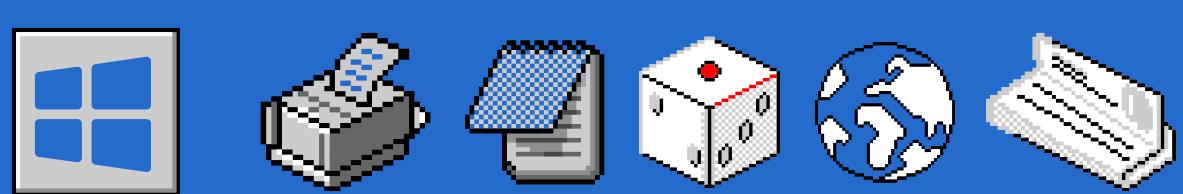

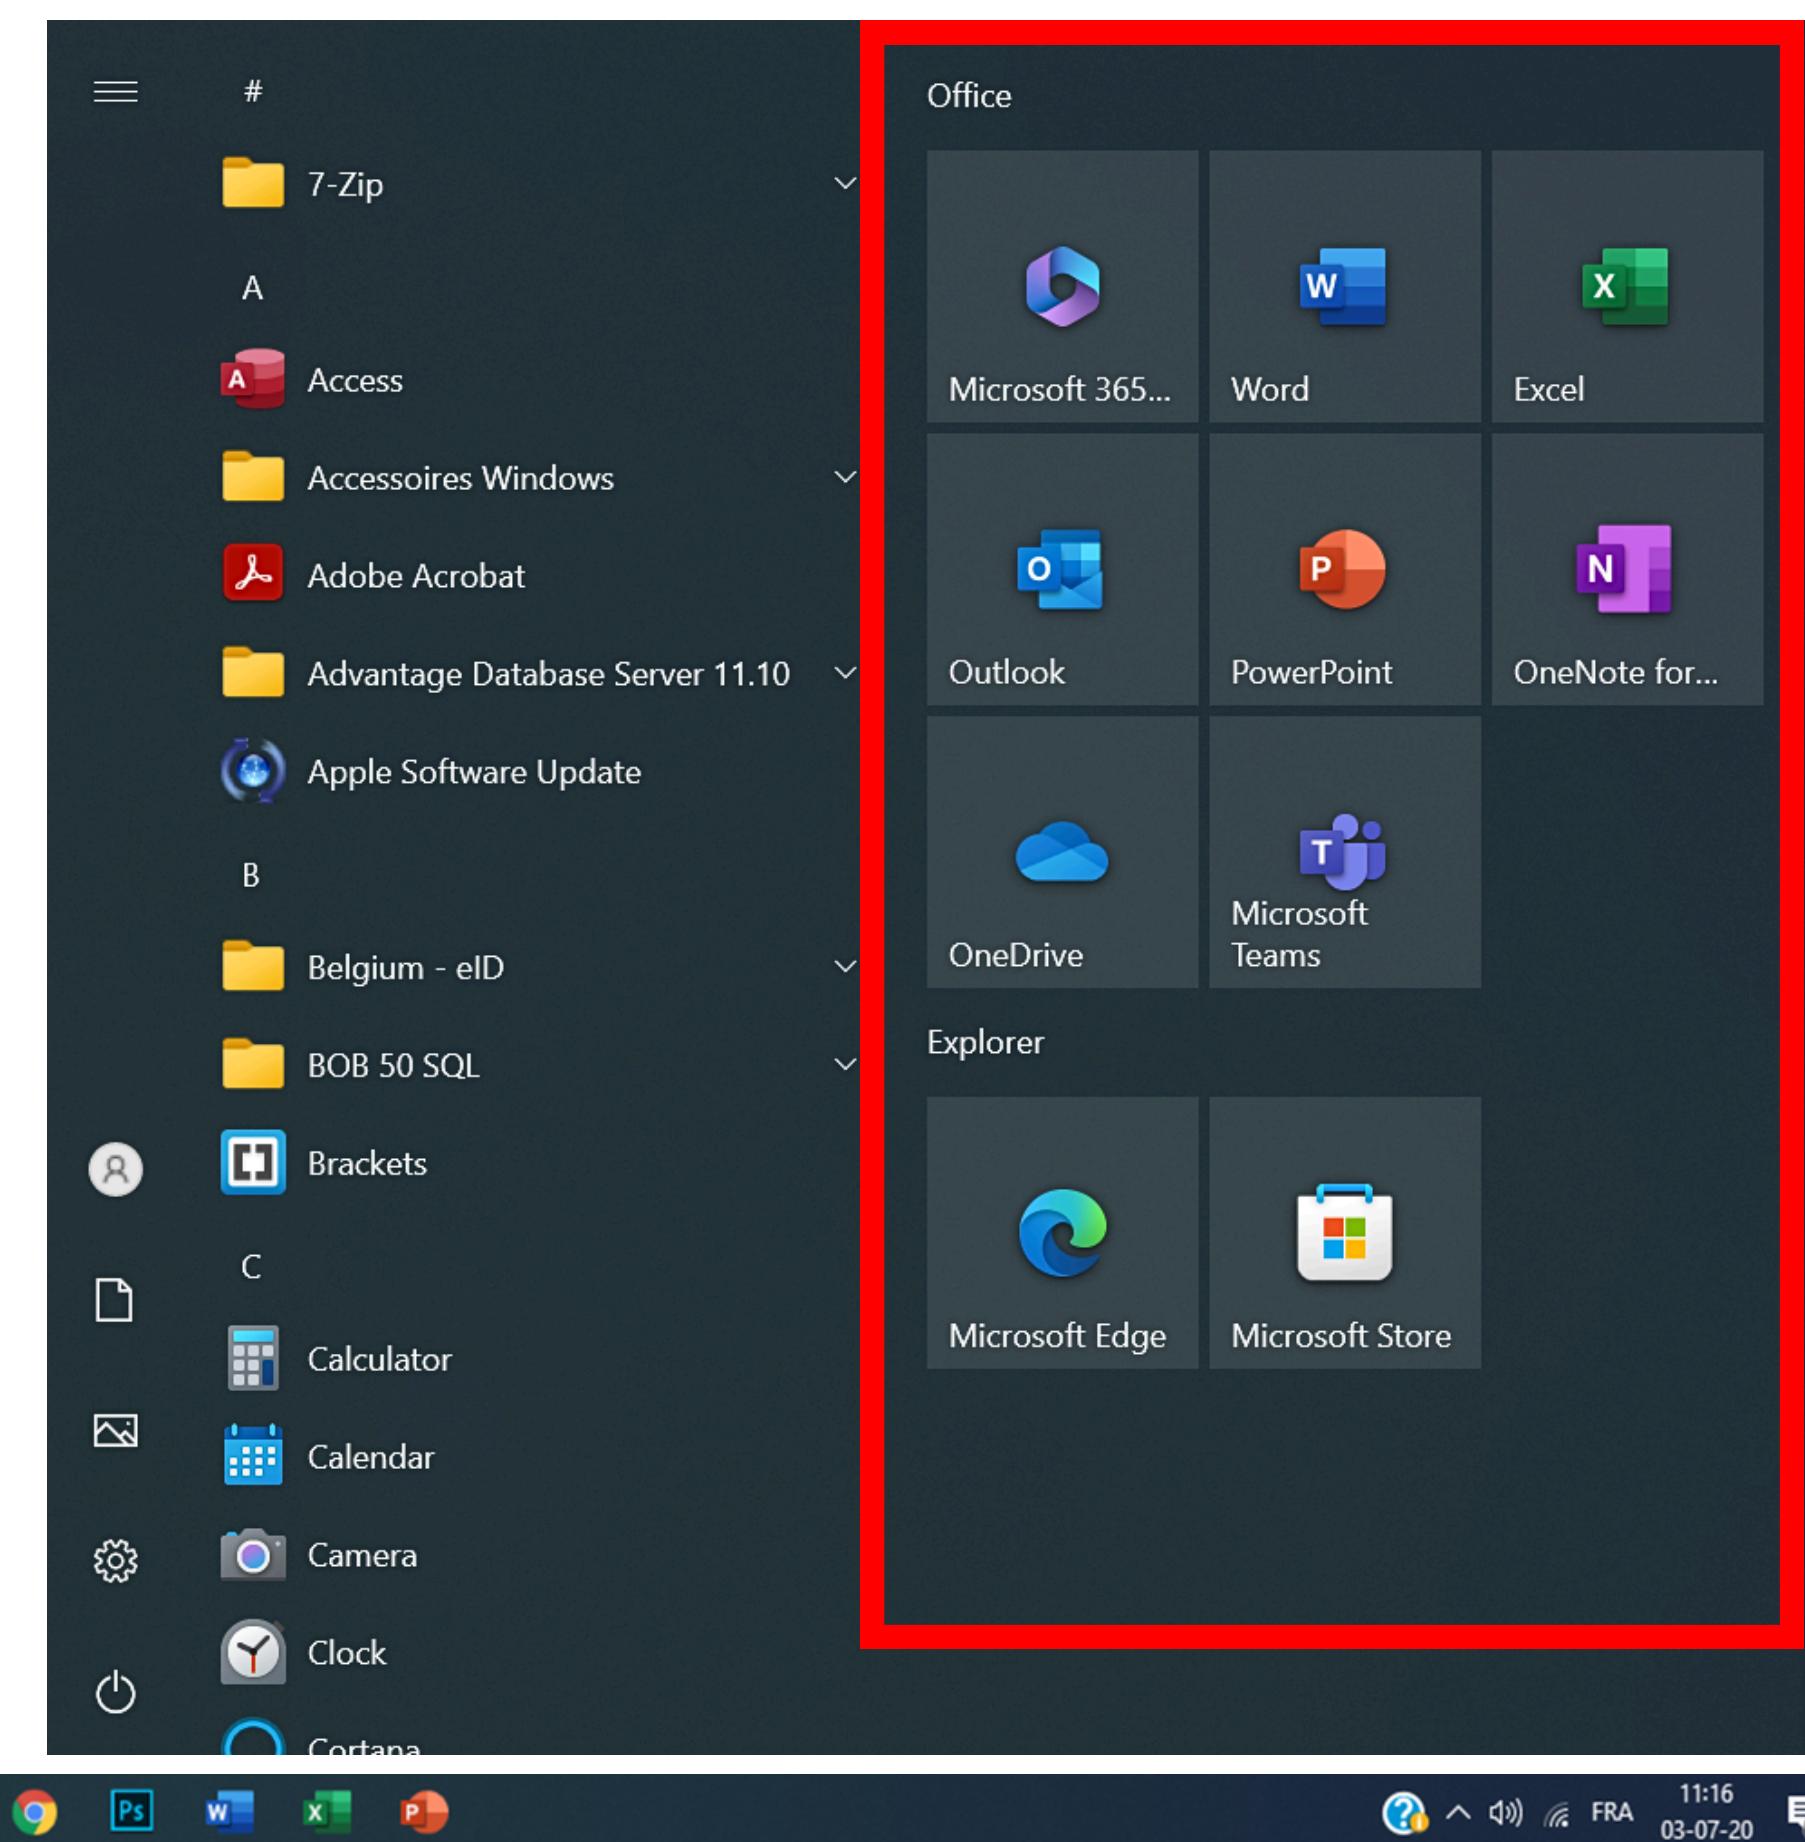

Le menu démarrer

Cliquer sur l'icône de menu permet de l'ouvrir

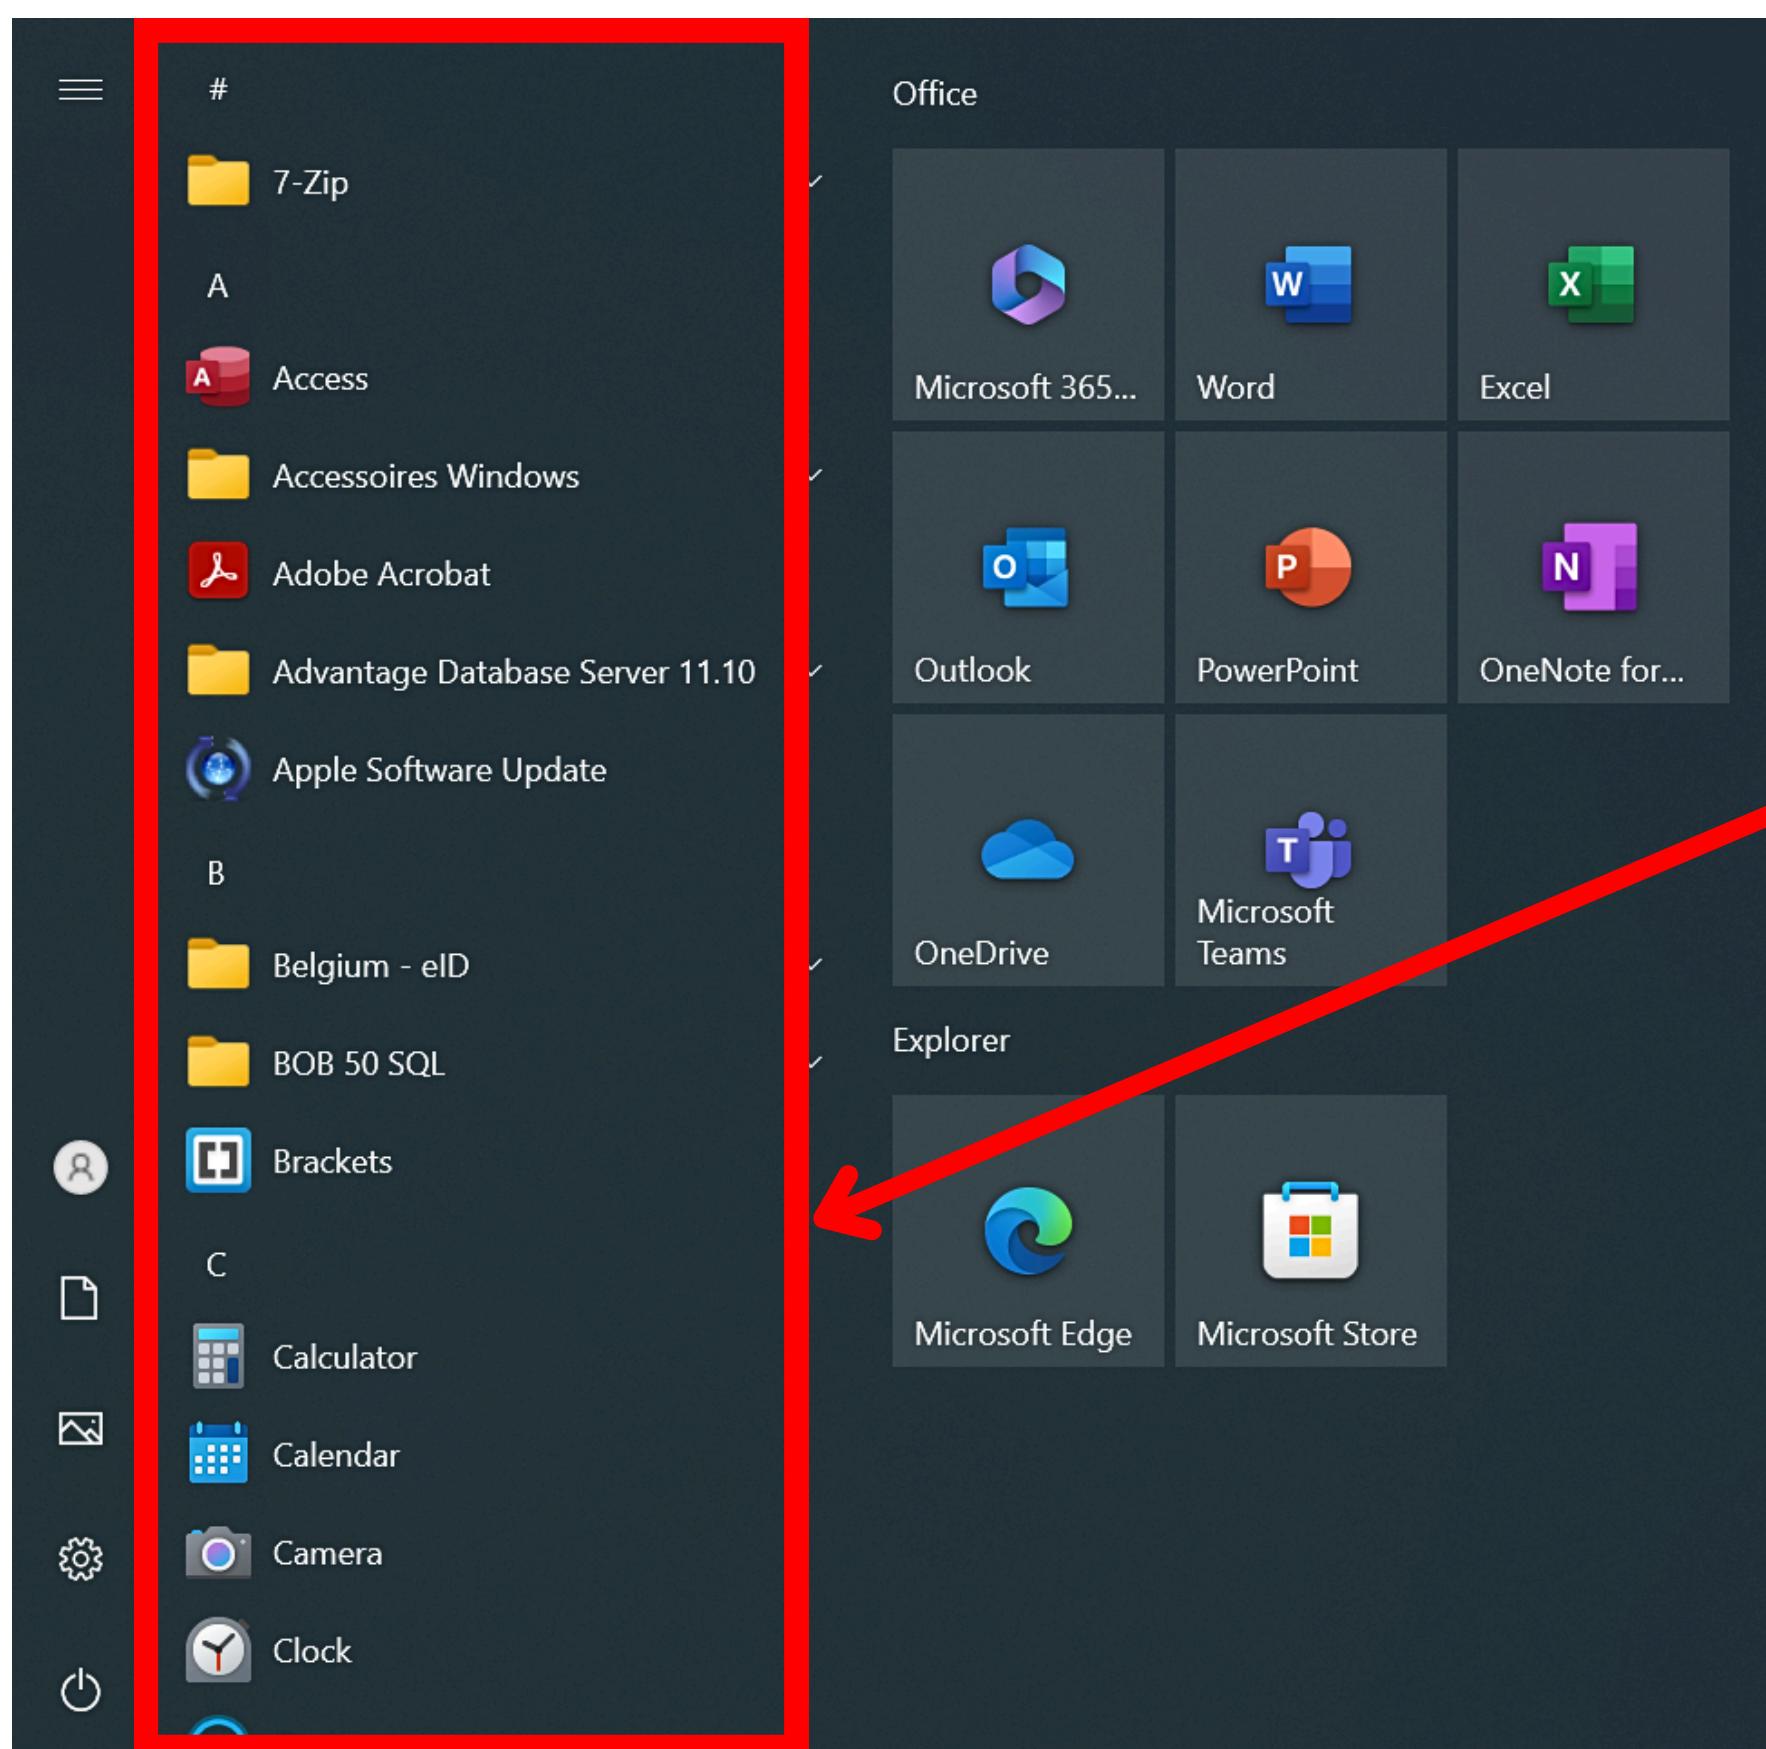

Il donne accès à la majorité des programmes installés sur l'ordinateur

La section de droite permet un accès rapide aux programmes de son choix

11:11PM

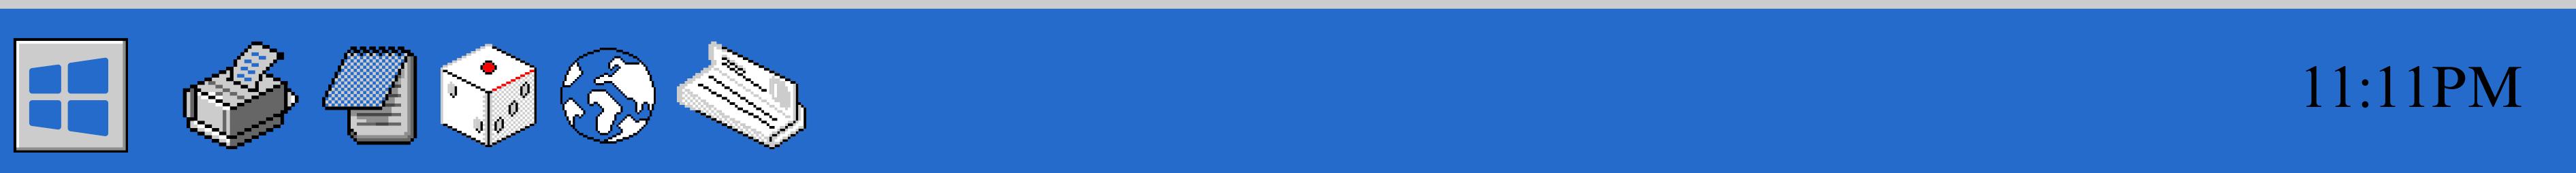

Le menu démarrer

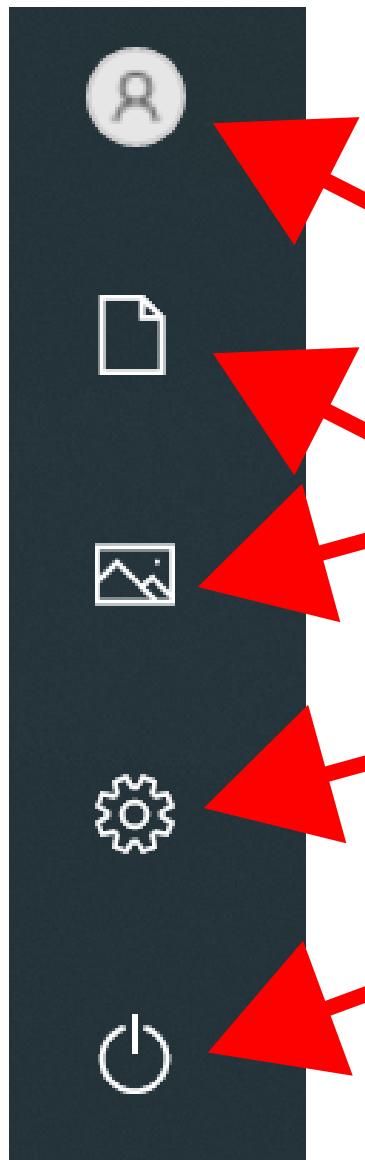

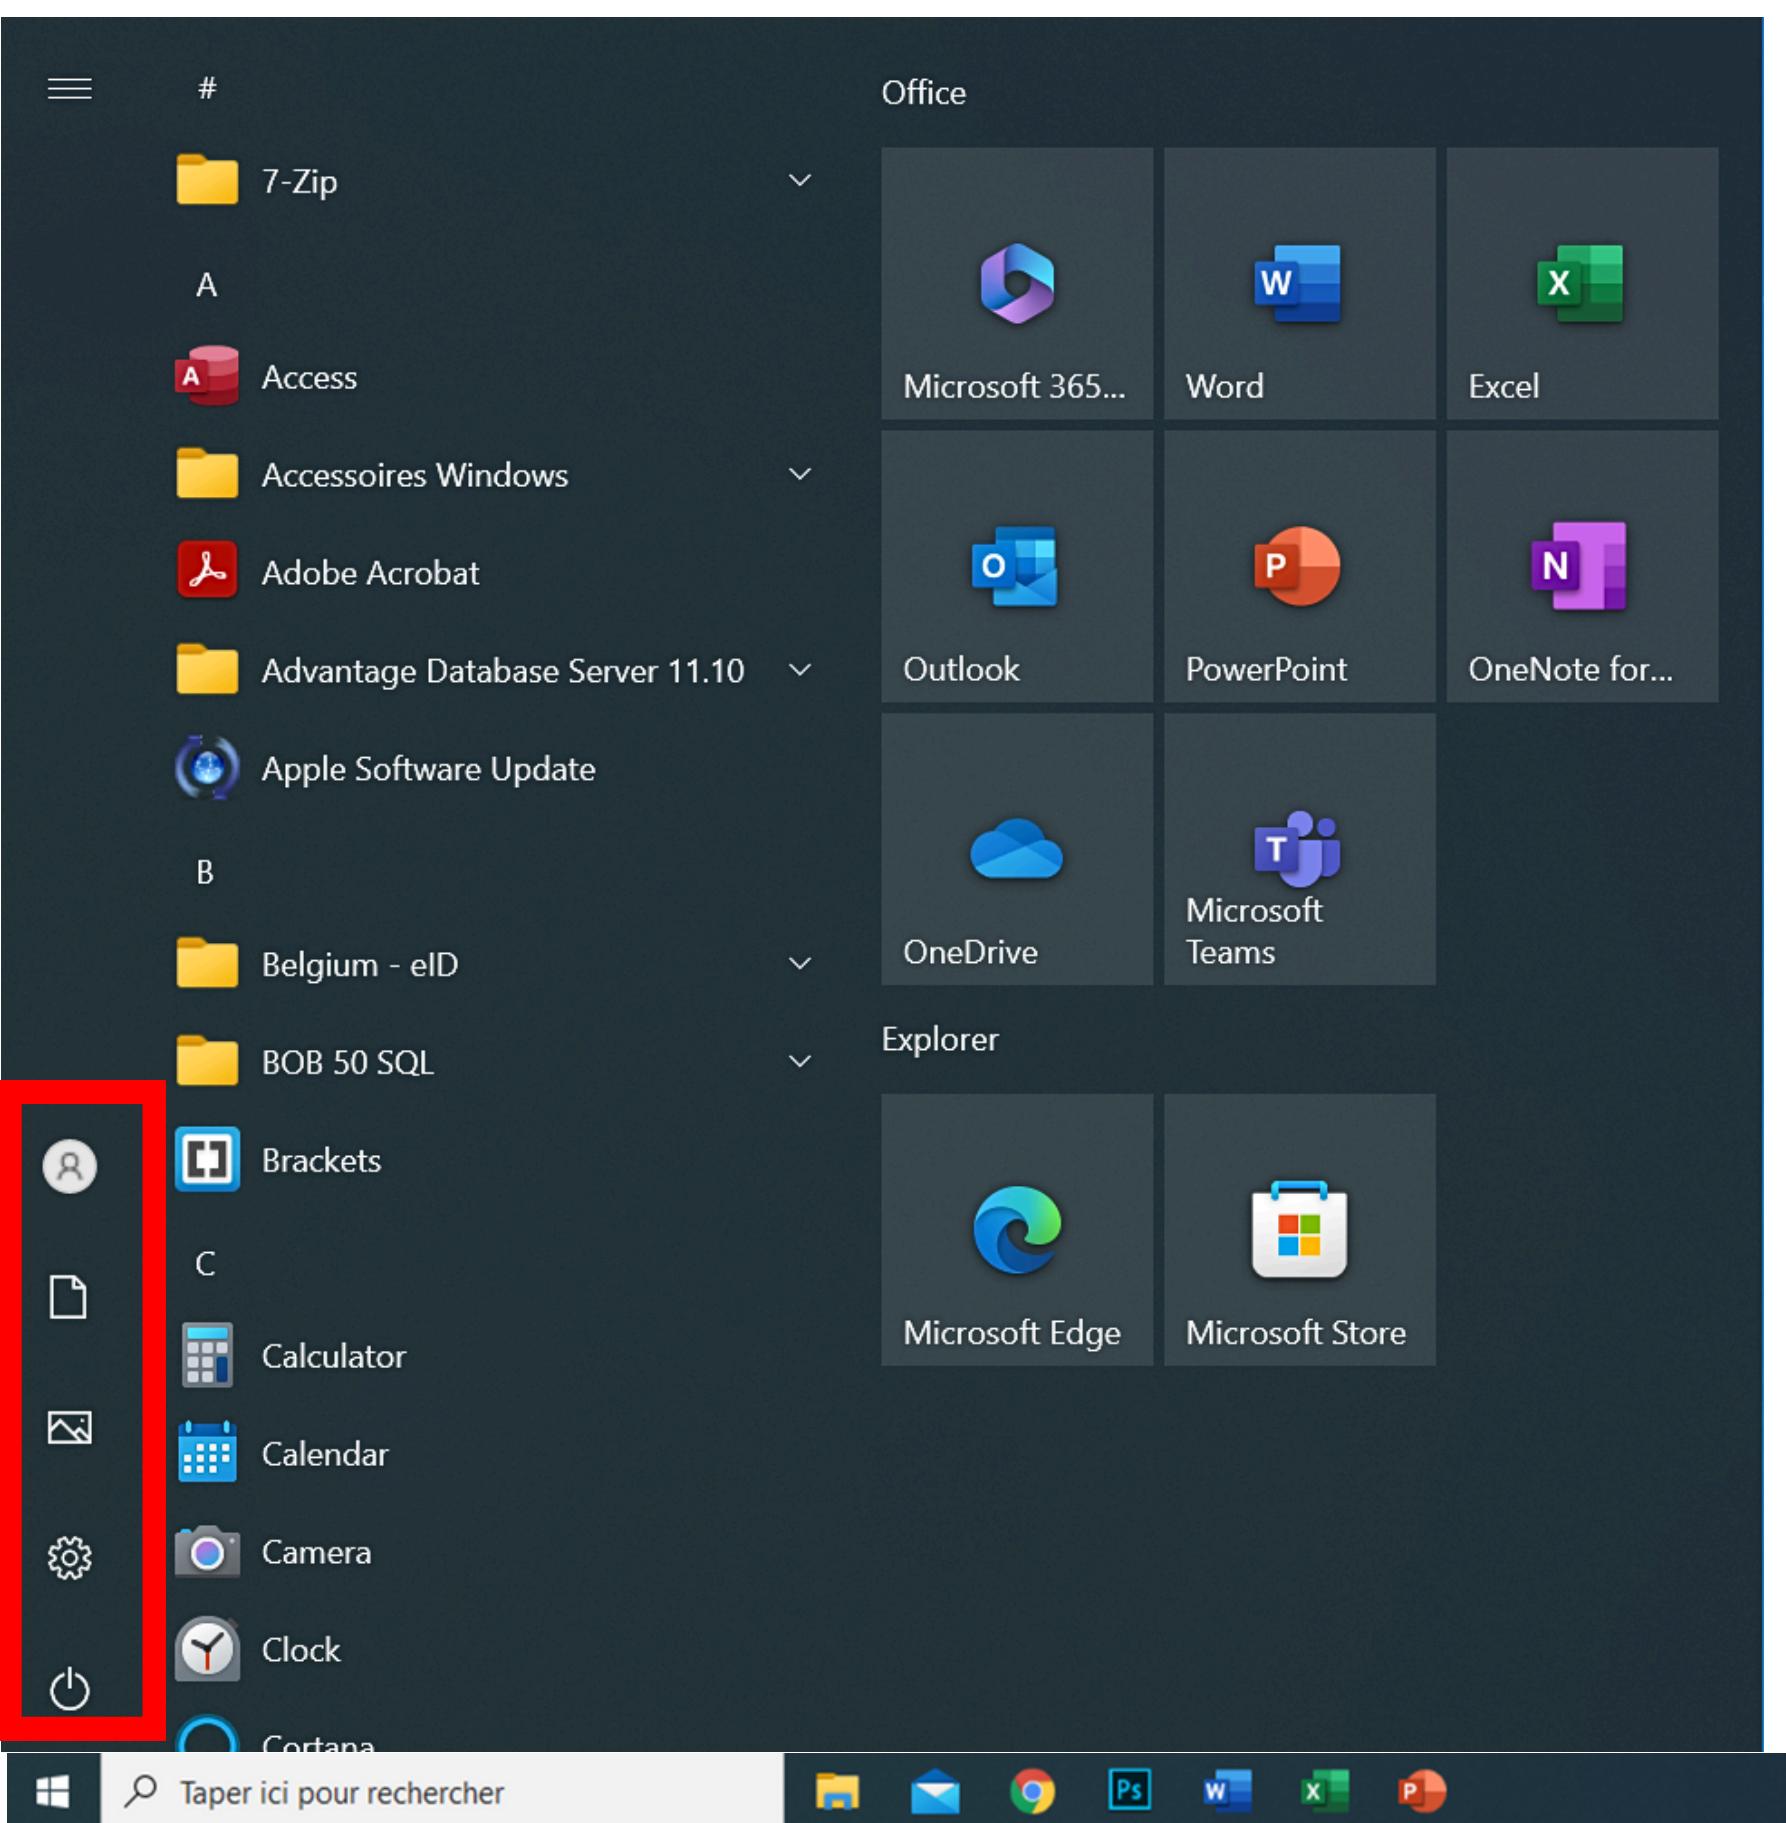

Dans la section gauche se trouvent tous les programmes

3 méthodes permettent de se déplacer rapidement dans cette section:

- La barre de défilement
- La roulette
- La recherche alphabétique

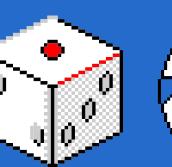

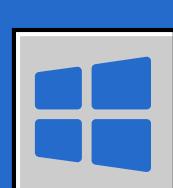

Le menu démarrer

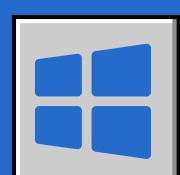

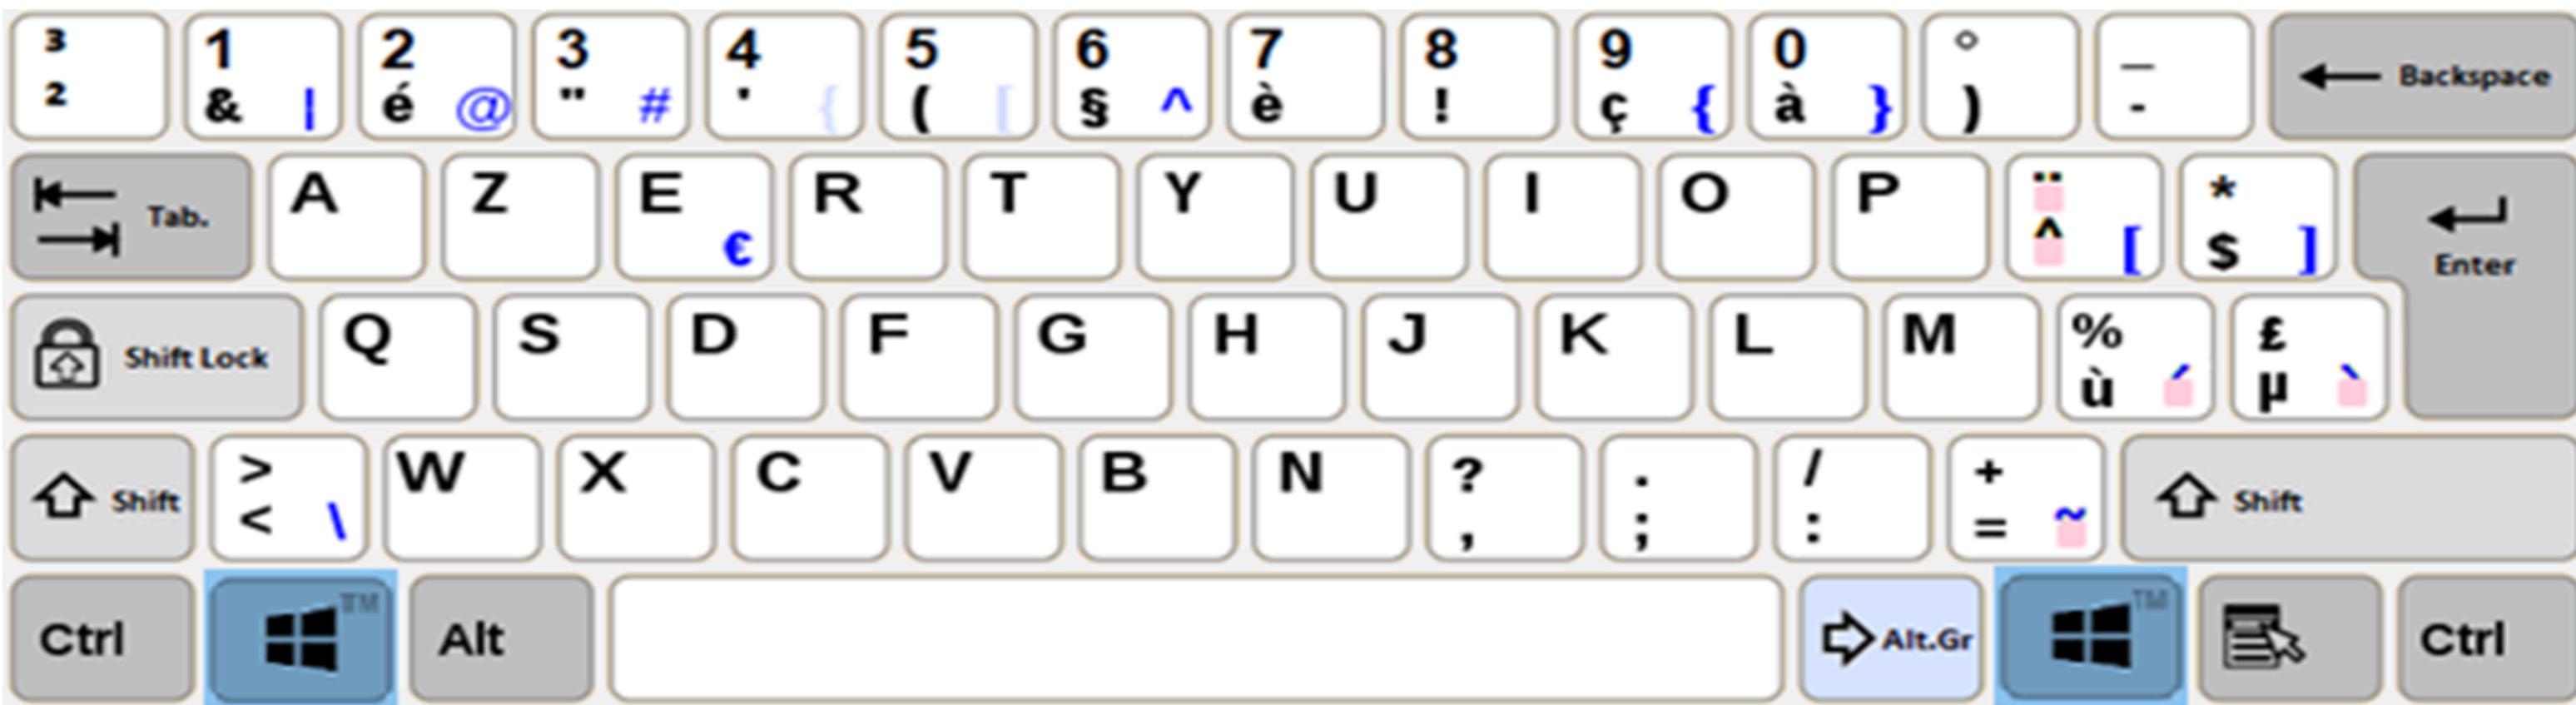

- Le changement d'utilisateur
- L'accès rapide aux documents et images
- L'accès rapide aux paramètres
- D'éteindre, mettre en veille ou redémarrer l'ordinateur

Les fenêtres

Une fenêtre permet l'affichage d'un contenu de l'ordinateur

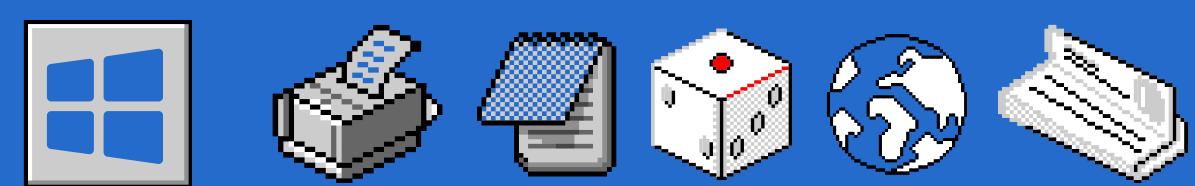

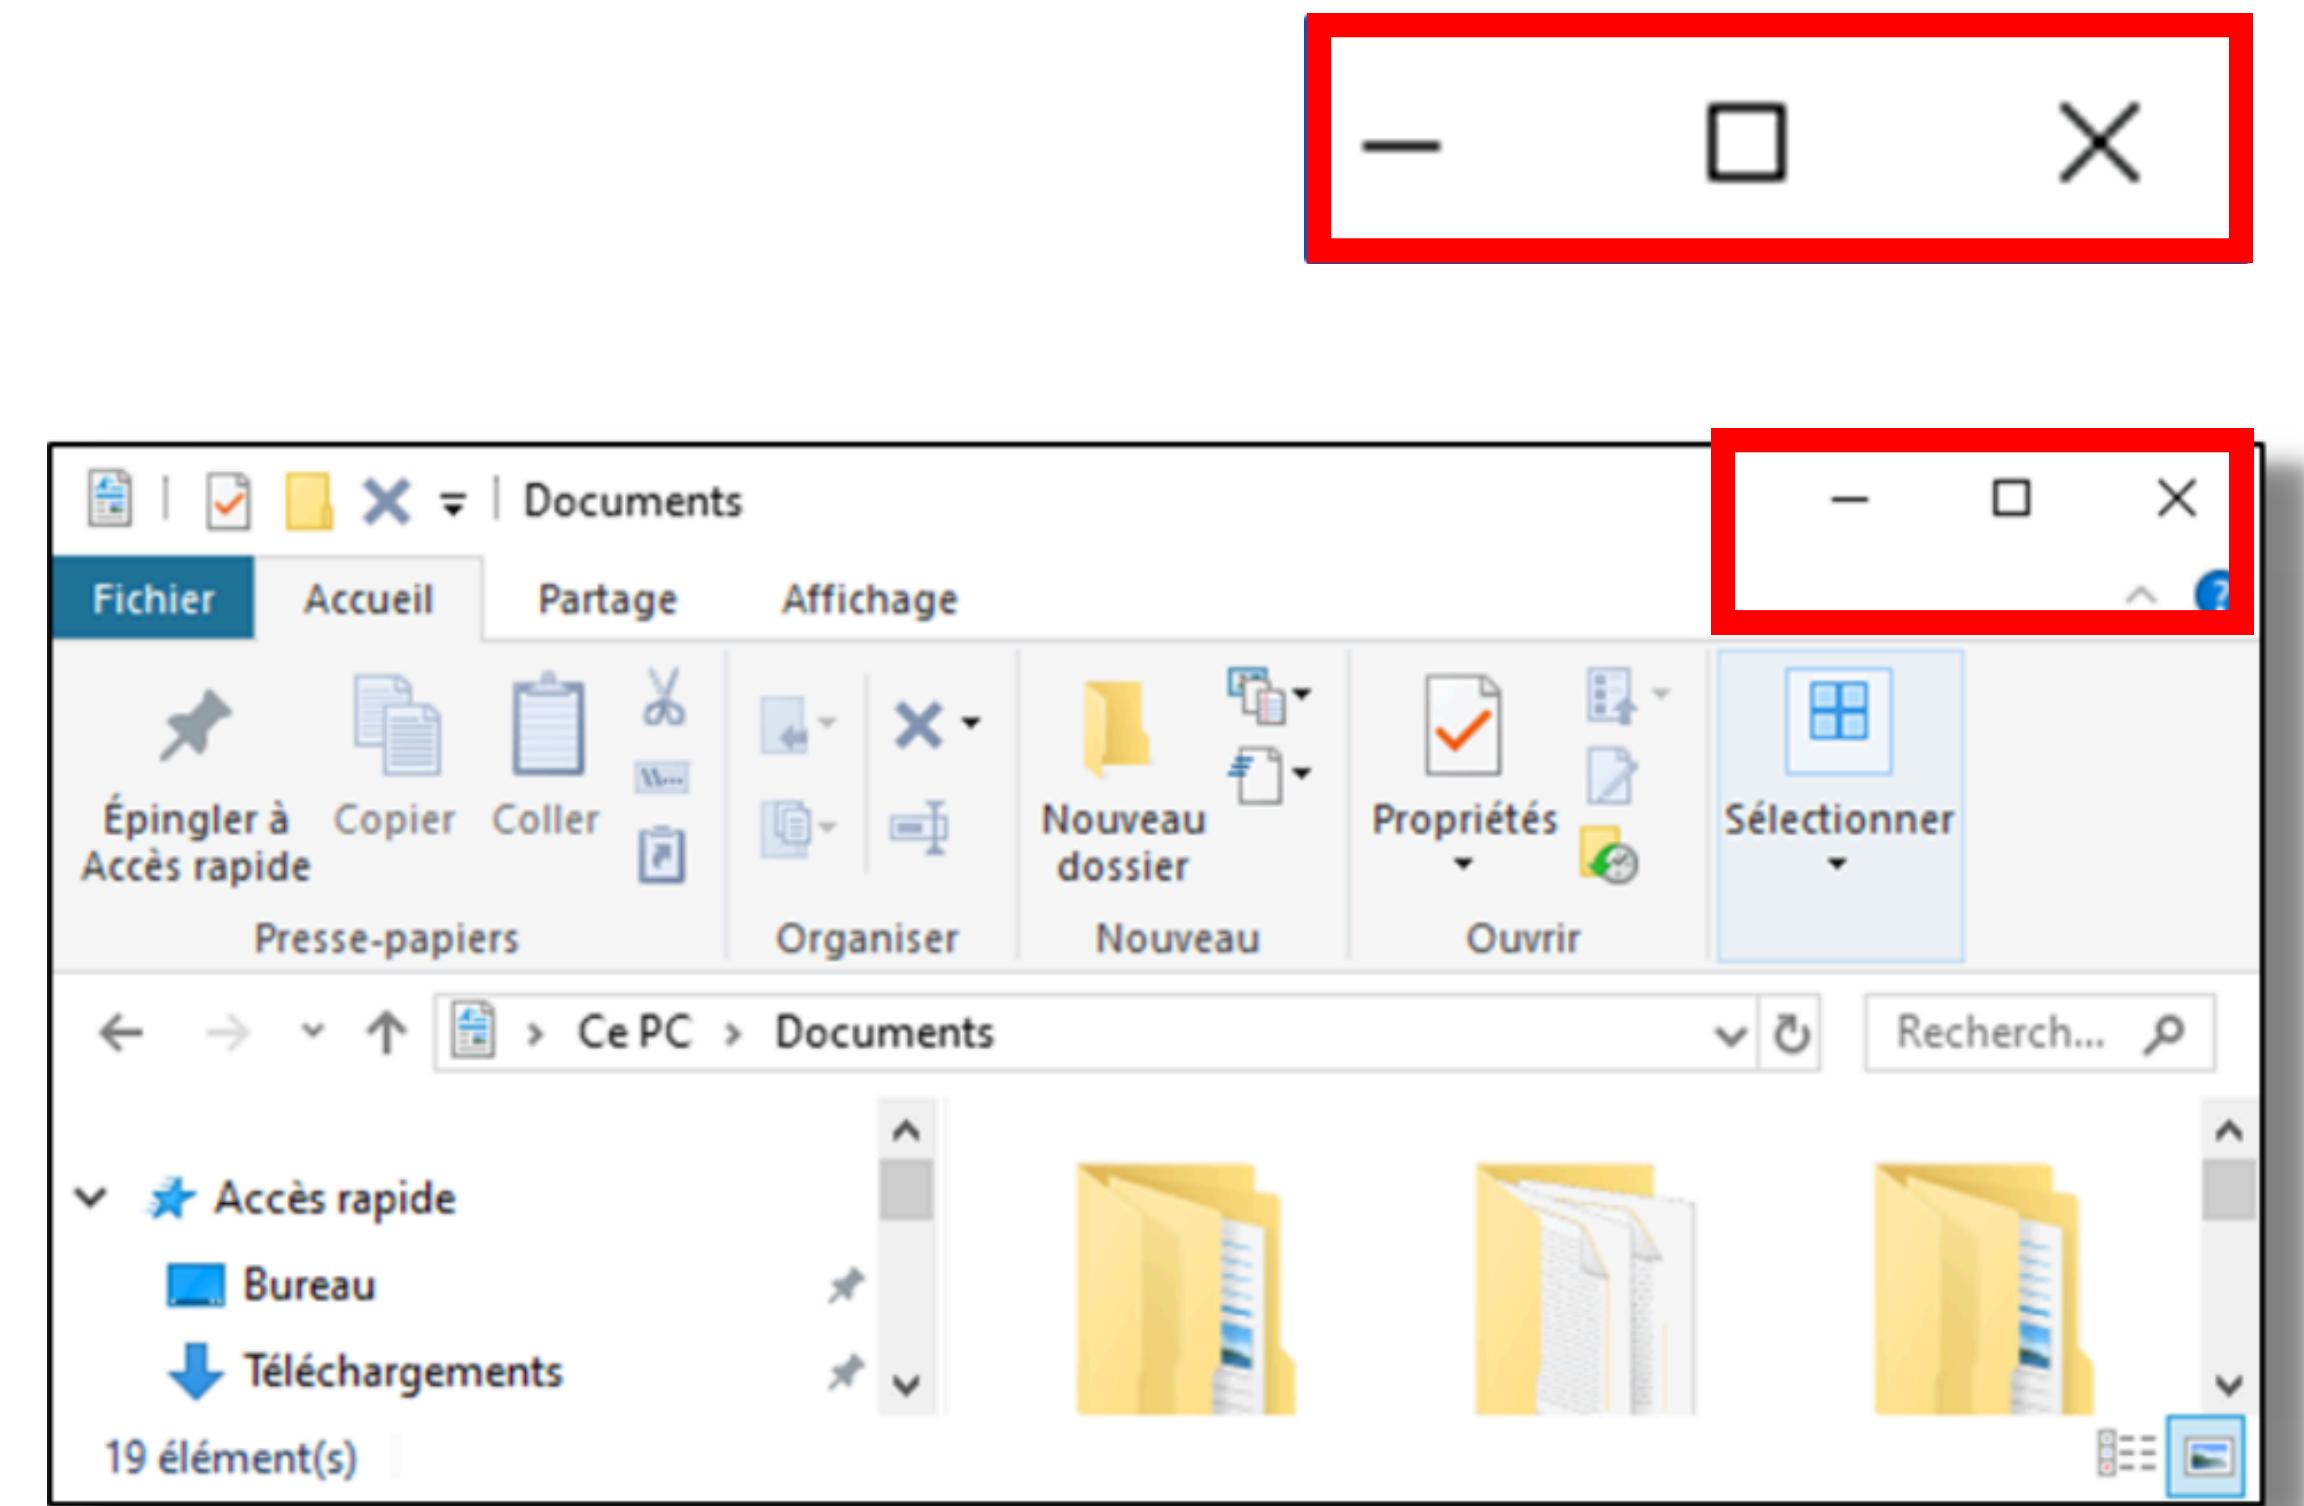

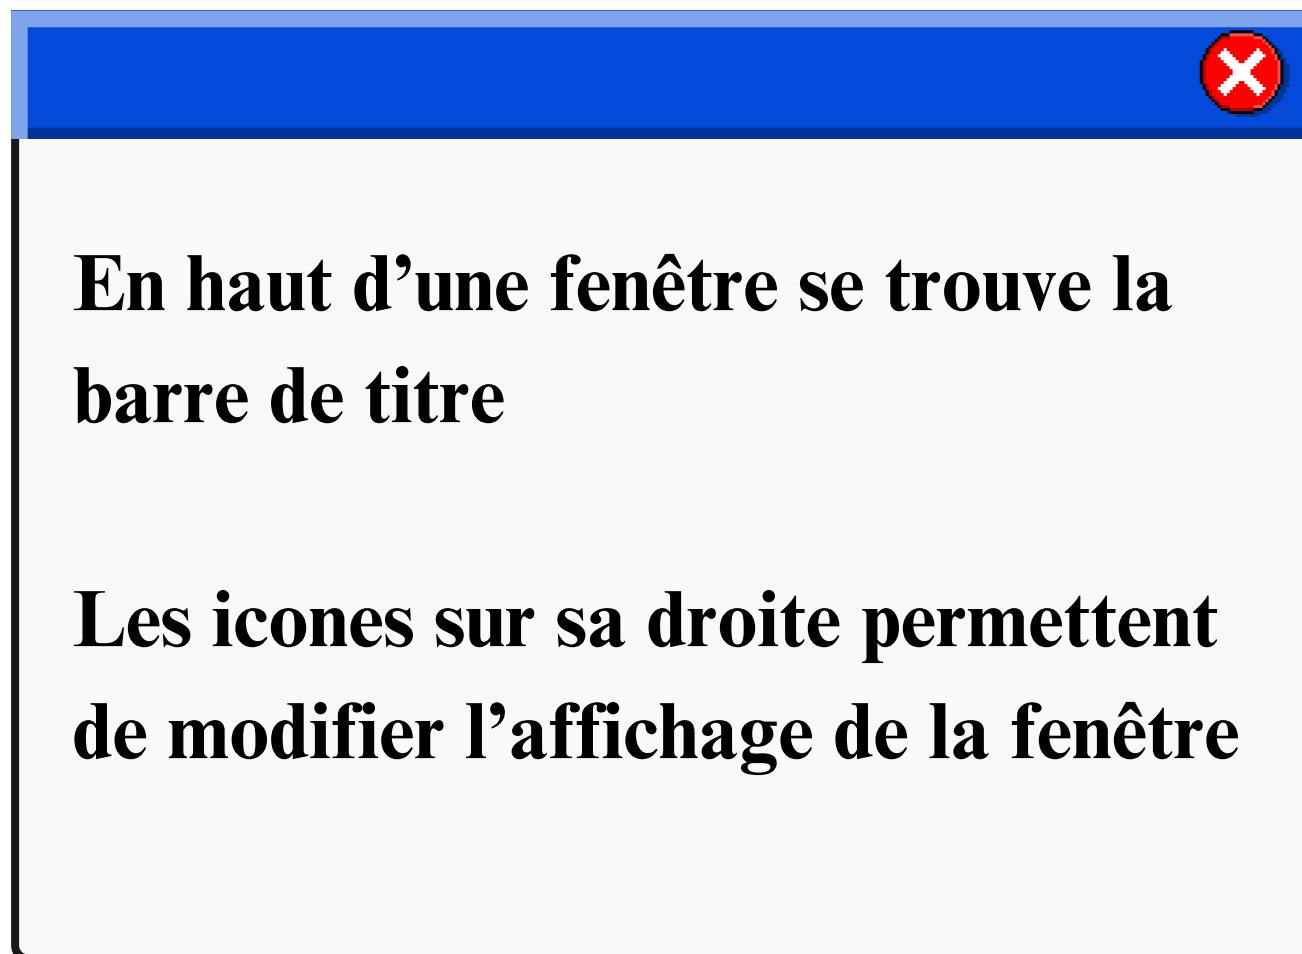

Il peut s'agir d'un programme, de l'explorateur de fichiers, d'une page internet,...

Une fenêtre en plein écran prendra l'intégralité de l'écran

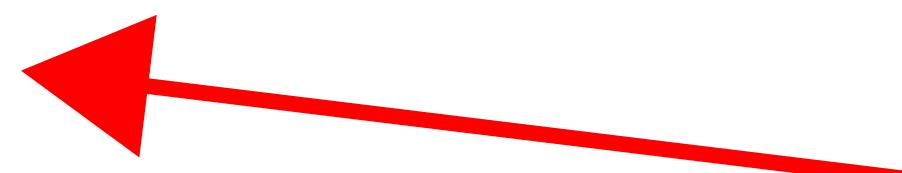

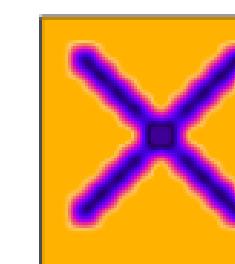

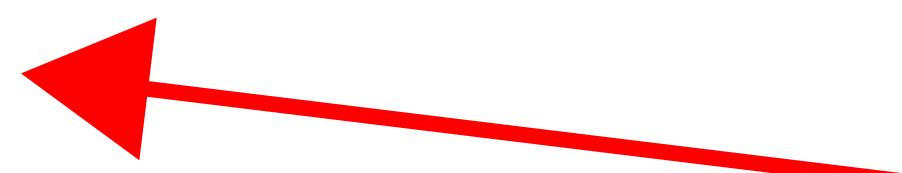

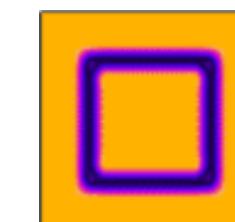

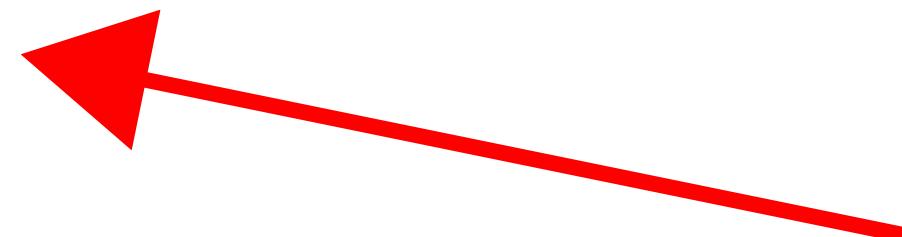

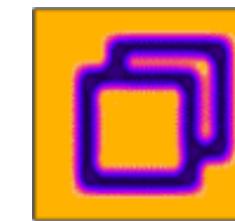

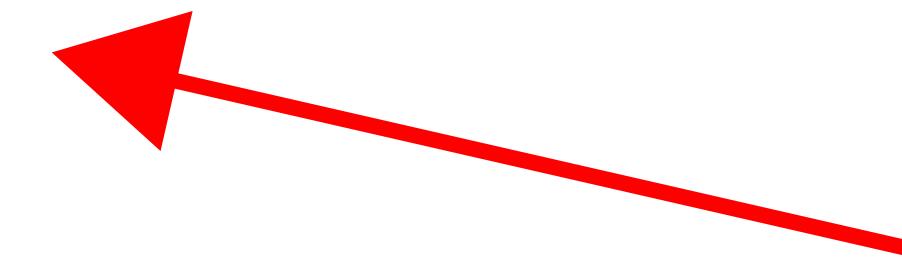

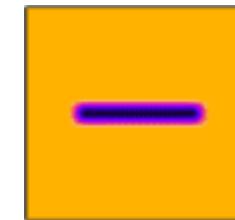

11:11PM

Les fenêtres

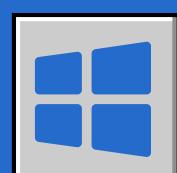

11:11PM

Les fenêtres

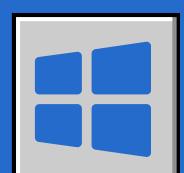

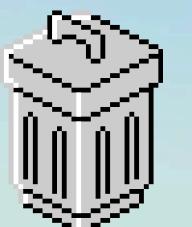

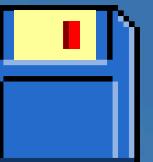

Les fonctions de ces icônes sont les suivantes:

- « Réduire » Réduit la fenêtre dans la barre des tâches
- « Niveau inférieur » Minimiser la fenêtre d'un niveau inférieur (reste toujours visible)
- « Agrandir » passe en plein écran une fenêtre réduite
- « Fermer » ferme la fenêtre
